

DEPLOY IN KUBERNET CLUSTER

PLASAMA DONOR APPLICATION

PNT2022TMID19296

The image displays two screenshots of the IBM Cloud Kubernetes console interface. The top screenshot shows the 'Worker nodes' tab for a cluster named 'mycluster-kmnr'. The cluster is in the 'Preparing master, workers...' state, with a warning that it expires in 30 days. A table lists the worker nodes, showing one node with ID '00000009' in a 'Provisioning' state, belonging to the 'default' worker pool in the 'Milan 01' zone. The bottom screenshot shows the 'Overview' tab for the same cluster. It features a warning banner about the 30-day expiration. Below this, four status cards are shown: 'Node status' (1 of 1 Pending), 'Add-on status' (0 of 0 Normal), 'Master status' (Deploying), and 'Ingress status' (Pending). A 'Details' section provides metadata: Cluster ID 'cdoemuvf0p4f8eamd36g', Version '1.24.7_1542', Infrastructure 'Classic', Zones 'Milan 01', Created '11/13/2022, 6:34 PM', and Resource group. An 'Image security enforcement' toggle is set to 'Enable'. A 'Node health' section is partially visible at the bottom.
